PRODUCT CARE:

This is an article of absolute artisanship; considering the fragility of the materials and the uniqueness of the workmanship, we highly recommend particular care in its use.

- **Avoid strong shocks.** This product is handcrafted of high quality acrylic resin. Though this material is highly durable, it can break if dropped. Therefore, we recommend avoiding strong shocks such as dropping on hard surfaces.
- **Avoid contact with abrasive materials.** To produce this item, we use highly durable and scratch-resistant acrylic resin. However, we recommend avoiding contact with extremely rough or abrasive materials to avoid any damage.
- **Avoid overheating.** Long exposure to heat sources with strong overheating (over 60°C / 140°F) can degrade the quality of the acrylic material.
- **Keep out of reach of children.**
